

Lega Nazionale Professionisti has received the following queries from a corporation potentially interested in participating to the tendering process concerning the International Audiovisual Rights of Serie A and Serie B Championship for Seasons 2009-2010 and 2010-2011:

- **Whether it is possible to receive the tender form in word format.**
- **Whether it is a requirement to have the bid document translated into Italian.**

The answers provided by Lega Nazionale Professionisti are as follows.

- For the Tender form, reference must be made to the “pdf” format which is published in our website. The “word” format of the Tender is not available for circulation.
- As concerns the requirement to have the bid document translated into Italian, according to paragraph 2.4.1 of our Invitation to Tender:

“Bids may be made in Italian or in English duly translated in Italian [...]” and “Bids made by other means or in other formats will not be accepted”.

It is therefore necessary that any Bid is written in Italian, or in English with accurate Italian translation.
